The Strike Has Ended

No Further Trouble With the London Dockmen.

PAPERS OF SETTLEMENT SIGNED.

The Strikers Secure Nearly Every Concession for Which They Were Contending For—A Great Labor Demonstration Takes Place in Hyde Park.

London, Sept. 16.—The master lightermen have conceded the terms demanded by their men, and thus the last obstacle to a full resumption of work by the strikers is removed. Messrs. Burns and Tillet, the representatives of the strikers, on behalf of the men, signed the agreement entered into between themselves and the directors of the dock companies for the settlement of the strike.

JOHN BURNS.

rectors of the dock companies for the settlement of the strike.

The agreement between the dockmen and the directors of the Dock Companies includes a stipulation that contract work shall be converted on the 1st of November into piece work. All payments are to be made directly to the men, under the supervision of the dock officials. Laborers who worked during the strike are to be treated as follows: workers by the strikers, and the directors pledge themselves not to show resentment against the strikers.

After the agreement had been signed Mr. Burns and Mr. Tillet went to the dock gates to announce the terms of the settlement. When the terms were explained there were slight murmurs of dissent among the crowd. Mr. Burns exhorted the men to stick to the union, and Mr. Tillet urged them to abstain from doing violence to the "blacklegs." Finally three cheers were given heartily for "The Strike and Victory."

The Surrey dockmen have agreed to resume work. Their grievances will be submitted on Tuesday at a conference of the masters and men at the Waste Arms.

The workmen of London held a monster demonstration at Hyde Park, Sunday afternoon, to celebrate the victory of the dock laborers in finally securing from the dock directors almost every concession for which they contended during the heroic struggle of the past month.

John Burns was, of course, the chief speaker, and when he arose to address the audience, from one of the numerous stands which had been erected in different parts of the park, he was greeted with deafening cheers, and so great was the enthusiasm of those present that for fully five minutes Mr. Burns was compelled to stand with his back to the right and to the left of him in acknowledgment of the unceasing ovation, but unable to utter a syllable for the deafening shouts which rent the air.

When, from sheer exhaustion, the men desisted and a measure of quiet was restored, Burns delivered what was evidently a carefully prepared speech showing more than ordinary thought and study. He declared that the strike now so happily concluded was only a preliminary skirmish with which was opened the great battle yet to come. A federation of labor would forthwith be organized throughout England and when this work was once completed the war would be carried into Africa. The thoughts of the whole civilized world, he said, were due to the generous contributions to the strikers' relief fund, and the victory of the men was in no small measure due to their timely aid. Every penny of the fund, he said, would be accounted for by the East End unions, under whose direction it had been distributed.

Burns and his wife, while walking in the strand yesterday, were recognized, and to escape the attentions which were at once showered upon them by the crowds which lined the street they were compelled to seek refuge on top of a well filled omnibus. In this way they escaped the immediate proximity of their crowds of admirers, but many followed the bus for several squares, sending up cheers for Burns and his plucky little wife.

There is still subdued growing among the men because the strike committee consented to defer the date of the advance of their wages until Nov. 1. But it is heard chiefly among those whose mode of living has been materially improved by idleness and their share of the relief fund. The more respectable of the laborers appear to be quite content with the solution reached.

The dock directors claim that they have now 4,000 men at work at the docks, and under the terms of the compromise these men are to be retained. A meeting has been arranged for tonight at which the Lord Mayor, Cardinal Manning, John Burns and Mr. Tillet will be the speakers.

Miss Smith, the white wife of Hans Smith (colored), of Cincinnati, after a family quarrel, took a dose of Paris green, and may die.

It is stated upon good authority that the president has signed the commission of William Warner to be commissioner of pensions.

The illicit distillery was raided near New Hope, Nelson county, Ky. Three thousand gallons of beer and twenty of whisky were destroyed.

The Toledo, Columbus and Cincinnati Railroad company has placed a \$3,500,000 mortgage in favor of the Central Trust company, of New York.

JOHNSTOWN RELIEF FUNDS.

The Flood Commission Has Practically Completed Its Work.

HARRISBURG, Pa., Sept. 16.—The flood relief commission practically completed its work Saturday, when it authorized its secretary to distribute \$1,000,000 of the \$1,618,000 in its hands to the Conemaugh valley flood sufferers. There had been distributed to these people prior to this action \$769,382.20 in cash and necessary articles purchased with the money contributed, making a total of \$2,369,382.70 set aside for the sufferers.

This amount does not represent all the money allowed them as the local committee at Johnstown expended for their comfort about \$100,000, and other contributions were sent direct to the scene of disaster without passing through the hands of the commission.

Without counting the loss of corporations, which will receive none of the commissioners' relief fund, the losses on the Conemaugh Valley approximate \$3,000,000. Probably one-third of this amount will be made up by contributions of various kinds.

In addition to the sum appropriated by the commission, Governor Beaver expended nearly \$200,000 borrowed by him for the enforcement of necessary sanitary regulations.

There were distributed outside of the Conemaugh valley \$139,275.02. The total amount received by the commission was \$2,605,114.22.

Although nearly three months and a half have elapsed since Governor Beaver received the first donation toward the relief of flood sufferers, the flow of contributions has not ended. Saturday a draft was received from the Lord Mayor of Dublin for \$200, in addition to £2,500 previously remitted to the governor.

MINERS' TROUBLES.

A Monster Mass Meeting to Be Held at Sherrodsdale, Oct. 16.—The miners of the Tincrova valley will hold a monster mass meeting at Sherrodsdale next Tuesday, and will be addressed by President McBride and Secretary Evans of the Miners' Progressive union.

The meeting is called for the purpose of deliberating over mining affairs. There has been some dissatisfaction among the Sherrodsdale miners the schedule, and a strike has been threatened.

The condition of affairs has been threatening since the strike last year, when hundreds of miners were on the verge of starvation and only kept alive by contributions. It is expected that the meeting will result in an amicable adjustment of the difficulty, as the operators are willing to arbitrate. The state of business in other parts of the valley is good and all the mines are running.

The Strikers Gain Everything.

BROOKWAYVILLE, Pa., Sept. 16.—The strike in the Pottawmunt section has been settled. The men get everything they ask for. This will no doubt have the effect of settling the strike on the Erie road, as Superintendent Robertson said last week that if the raise were granted elsewhere the Northwest company would not be behind anybody in giving the advance. This will then have the almost certain effect of influencing Reynoldsville and the other sections to follow during the week. The early victory is a surprise to everybody.

UNITED STATES MILITARY ACADEMY.

Three Valuable Pictures Soon to Be Presented to That Institution.

WASHINGTON, Sept. 16.—The portraits of Gen. Grant, Sherman and Sheridan, which were painted by direction of Mr. George W. Childs for the United States military academy, will be formally transferred to that institution Oct. 3. Gen. Horace Porter will represent Mr. Childs on the occasion, and will deliver an appropriate address in presenting the portraits. Col. John M. Wilson, superintendent of the academy, will receive them. The corps of cadets will parade, and take part in the ceremonies, which will be held in Grant hall during the afternoon.

It is expected that the secretary of war, Gen. Schofield, Howard Kelton and others prominent in military and civil circles will be present at the presentation ceremonies. These portraits were to have been presented last June, but the presentation was postponed upon the request of the board of visitors to the academy. Gen. Lew Wallace, who was president, was selected to make the presentation address, but that gentleman, on account of pressing engagements, was compelled to decline. Thereupon Mr. Childs selected Gen. Horace Porter, whose association with Gen. Grant and whose personal knowledge of Sherman and Sheridan make the selection very proper and fitting.

Race Riot in Illinois.

LAWRENCEVILLE, Ill., Sept. 16.—This town was the scene of a desperate fight between whites and blacks last night. County Judge Barnes arrested a negro on the street for running a mule with a knife. The negroes attempted to rescue the prisoner, and the whites went to Barnes' assistance. There was a hard fight, but the whites won and landed four negroes in jail. The negroes rallied again, broke in the jail and rescued the prisoners. The whites organized and in the fight that followed Judge Barnes was shot but not fatally, and two negroes were killed. About a dozen were wounded on both sides. The ring-leader was captured and put in jail. A posse armed with Winchester surrounded the jail and the negroes fled panic stricken from the town.

A Terrible Old Boy Suicide.

TRAVENNE CITY, Mich., Sept. 16.—Cyrus Curtis, aged 10, a farmers' boy, living at Williamburg, five miles north, committed suicide Friday night by hanging himself. The cause for the act is unknown.

Destructive Fires.

Nearly a Million Dollar Loss at Louisville, Ky.,

AND FIVE FIREMEN KILLED.

Two Other Men Seriously Injured, One of Them Probably Fatally—The Louisville Hotel Damaged—Losses By Fire Elsewhere.

LOUISVILLE, Sept. 16.—The five story building, corner of Seventh and Main streets, occupied by Bamberger, Bloom & Company, the largest wholesale dry goods house in the city, caught fire last night. The entire city fire department turned out and endeavored to prevent the spread of the flames. The guests all left the Louisville hotel, which nearly adjoins the destroyed building on Main street, many of them escaping by means of the fire escapes and ladders on the Sixth street wing, the intense heat making exit from Main street front impossible.

At 1 o'clock the fire was under control, being confined to the establishments of Bamberger, Bloom & Company, dry goods; Virgil Wright, tobacco and cigars; Bretsfelder & Company, hats and caps; W. C. Kays & Company, boots and shoes. The west end of the Louisville hotel building was badly damaged by fire and water.

Conservative estimate places the aggregate loss at \$750,000, divided as follows: Bamberger, Bloom & Company, on stock and buildings, \$600,000, fully insured; Bretsfelder & Company, stock and buildings, \$75,000; W. C. Kays & Company, stock, \$50,000; other small losses aggregating \$15,000. Five men were killed and two seriously injured by the falling of the Seventh street wall. The killed are: Capt. E. L. Early, of No. 1 hook and ladder; D. Early, of No. 1 hook and ladder; John Wheeler, Patrick Foley, Lawrence Stackeiter and John Monahan, all firemen.

Denny McGrath had both legs broken and skull crushed, will die; Frank Best, seriously injured, but may recover.

No statement of the Louisville hotel losses can be obtained.

Serious Loss to a New York Village.

ROCHESTER, N. Y., Sept. 16.—A special to The Herald from Medina, N. Y., says that the most destructive fire that has visited that village in several years, started in the oven of the pulp manufacturing establishment of A. M. Ives & Sons, on Main street, at about 5:30 this morning, and was not subdued until property valued at nearly \$80,000 had been destroyed.

A new building recently erected by S. C. Bowen, and used by him as an evaporator caught fire from the flames and was burned to the ground. Ives & Son's loss will be \$5,000. The building used for pulp factory, was owned by Ernest A. Fuller, and was valued at \$5,000. Insured for \$1,000. S. C. Bowen's loss is \$10,000; partially insured.

An Exposition Building Burned.

St. Joseph, Mo., Sept. 16.—The main building of the New Era exposition burned last night. The place was too far away for the fire department to reach. There were about 5,000 people on the grounds when the fire started, and no one has any idea how the fire originated. The main building is a total loss. All the exhibits and booths are destroyed. The fine steel car, which is on exhibition, was also destroyed. The total loss is estimated at \$250,000; loss on car \$40,000.

Barn and Stock Burned.

LAWRENCE, Mass., Sept. 16.—The barn of A. L. Welton, a milkman in Methuen, was burned last night, with thirty tons of hay, two horses, four cows and a large amount of farming tools and stock. A two story house adjoining was also burned. Total loss, \$6,500; insurance, \$5,000.

Fire Raging in Jacksonville, Fla.

JACKSONVILLE, Fla., Sept. 16.—The Clyde steamship ware house is burning. The fire is likely to spread to other buildings.

EFFECTS OF THE STORM.

Many Lives Lost and Millions of Dollars' Worth of Property Destroyed.

NEW YORK, Sept. 16.—Rays of sunshine have at last broken through the heavy clouds, and New Yorkers are congratulating themselves that the storm, which has remained with them since Monday last has fled. But following this comes the statement that weather of a much warmer kind is coming this way.

The feeling of uneasiness in shipping circles as to the safety of many vessels at sea during the storm remains as keen as ever. There are several New York steamers and sailing vessels overdue, and as telegraphic communication between here and a number of ports still remains cut off, it is impossible to learn anything for the present.

Communication with Sandy Hook is all right again. No less than a score of storm-delayed vessels of all kinds and tonnage are reported as having passed up to quarantine. They all show evidence of having passed through the storm. Some are short of spars and others have their rigging and gear in a disordered state.

A rough estimate of the loss to shipping alone by the late storm was made by an officer of the Maritime Exchange. He figured that fully \$1,250,000 damages had been done by wind and sea. The number of vessels known to have been wrecked greatly exceeds the first expectations of shipping men, and

many more vessels are yet to be heard from.

It is feared that the pilot boat Ambrose Snow, No. 12, has been lost, as nothing has been heard of her since Saturday, Sept. 7, when a pilot left her to bring a vessel into this port. The Snow had two men on board.

THE TEEMER-GAUDAUR RACE.

Referee Pringle Decides It a Draw, But It Will Not Be Re-Raced.

PITTSBURGH, Sept. 16.—John Pringle, referee in the Gaudaur-Teemer boat race, has decided that Friday's race was a draw, and ordered the men to row over again next Monday on the Wood's Run course, in the Ohio river. Gaudaur's backer positively refused to agree to this, and the two men were then conducted to the office of the final stakeholder, where the money of each was returned to him. Teemer offered to increase the stake \$500 and row again within ten days at Wood's Run, or any course in New York, lake or river, but Gaudaur's backer still persisted in refusing.

The referee, in giving his decision, stated that there was no foul, but that Hamm had violated the articles of agreement in pulling in front of Teemer, and that he had no business on the course at all. The referee stated that he had heard Hamm say that he had gone in front of the two men to keep Gaudaur from running into snags, and this he decided was interference under the rules governing the race.

Gaudaur created something of a sensation by claiming to have been drugged before the race, but his condition did not indicate that he was unwell.

Under the referee's decision all bets are off.

A Clerk's Shortage.

CAIRO, Ill., Sept. 16.—The accounts of T. W. B. Williams, collection clerk in the joint offices of the Adams, Southern and American Express offices here, were checked up Friday, and an embarrassment of \$600 was discovered. A warrant for his arrest was issued last evening, but was not served, as the young man was too sick to be removed or to escape. An attempt was made by several societies to raise money to make up the shortage, and half the amount was raised, with which it was hoped a temporary compromise might be effected, the balance to be raised later. This scheme failed. Williams made an attempt at suicide.

Progress Made in the Cronin Trial.

CHICAGO, Sept. 16.—The third week of the Cronin trial came to an end at 3:30 o'clock Saturday afternoon, when Judge McConnell announced that the fourteenth venire had been exhausted. Three hundred and twenty-seven veniremen have been examined. All have been excused except Culver, the real estate dealer, and Farmer Pearson. Culver is a probable juror. Pearson will doubtless be excused by the state. Thus far the state has used twenty-four and the defense fifty-two of their peremptory challenges.

Swallowed Her False Teeth.

READING, Pa., Sept. 14.—Mrs. Frances Dunford, while laughing at the play of "The Old Homestead" at the Academy of Music Tuesday night, swallowed her false teeth. She suffered great pain until Friday afternoon, when she died. The false teeth were found in her stomach when the autopsy was performed.

Fastest Man-of-War Afloat.

PHILADELPHIA, Sept. 16.—The new cruiser Baltimore returned yesterday from her trial trip, in which she made twenty and two-tenths knots an hour for three hours, and developed 10,000 horse power, which is 1,000 in excess of contract requirement. It is claimed that this makes her the fastest man-of-war afloat.

Swindlers Exposed.

BROOKLYN, Sept. 16.—The police warn the public against a fictitious firm styled Horace Walter & Son, No. 72 Arch street, Brooklyn, who have swindled a number of western merchants. The swindlers send orders for goods and order dealers to the above named firm, who, when inquiry is made as to the standing of the person sending the order, reply favorably. The goods thus obtained are never paid for. There is no such firm as Horace Walter & Son, and no such place as 72 Arch street in this city.

Trying the Hatfield Gang.

PIKEVILLE, Ky., Sept. 16.—At the trial of Plient and Doll Mayhew, two of the notorious Hatfield gang were convicted of the murder of the McCoy brothers and sentenced to imprisonment for life. They claimed that they were urged to the deed by old Ance Hatfield. Ellison Mounts was found guilty of the murder of Effora McCoy and sentenced to be hanged Dec. 3.

Fatal Explosion.

KINGSTON, N. Y., Sept. 16.—By the explosion of a blast which had been prematurely fired, Saturday afternoon, at Brigham's cement works, on Rondout creek, near here, a man named Moore was killed and the superintendent of the works and two other men were severely, if not fatally, wounded. Physicians were sent from here to attend the injured.

A Love Affair Tragedy.

CALIFORNIA, Mo., Sept. 16.—Luther Wallace called at the Central hotel in this city yesterday and asked to see Miss Lulu Smith, a domestic, who has been connected with the hotel for two weeks past. She received him in her room, and immediately two pistol shots resounded through the house. Both were found with bullet holes through their heads. The girl died immediately. Wallace is still alive, but cannot recover. A love affair is supposed to be at the bottom of the tragedy.

THE EVENING BULLETIN

DAILY, EXCEPT SUNDAY.

ROSSER & MCCARTHY,
Proprietors.

MONDAY, SEPT. 16, 1889.

THERE is a good Presidential timber in Hon. Leon Abbett of New Jersey. Keep your eye on Abbett.

THE G. A. R. intimated Mr. Tauner, and then Harrison turned about in few days and fired him. Comment is unnecessary.

It took the citizens of Cloverport, Ky., just half an hour to raise a subscription of \$20,000 to secure the shops of the Louisville, St. Louis and Texas Railroad. That's enterprise.

OMINOUS clouds are gathering over the head of poor President Harrison. Tauner has been fired, Secretary Noble is disgusted with official life and may retire, and there are reports of "grave abuses in Uncle Jerry Rusk's Department of Agriculture." "Uncle Jerry may be all right, but they do say, that "official crop reports are obtained in advance of their formal giving out by the Department, and are used for speculative purposes."

THE Republicans of Adams County, O., are without a candidate for Sheriff. Their nominee declined to make the race. His name is Francis Lang, and at a convention Saturday to fill the vacancy on the ticket he talked right out in meeting and told the delegates it was no use to try; they couldn't beat the Democratic nominee. That was plain talk from a sensible fellow. Adams is always Democratic, except when a barrel of hooch is emptied into it.

HERE, from the New York evening Post, is an interesting little statement with respect to the public debt:

UNDER CLEVELAND.

July, 1885—Decrease.....	\$8,662,791

MR. LEES, a Philadelphia manufacturer of gingham, has failed. He accounts for his failure by attributing it directly to the short-sighted policy of imposing tariff duties on raw material. Speaking from a long experience in business, he says:

The only salvation for the manufacturing industries of this country must be found in free raw material. With raw material free we could have reached out in other directions, and I am fully convinced there would be a general diversification of industries. Unless Congress removes the tariff on wool it won't be long before some of the largest factories in this country will be compelled to close their doors.

Brother Davis can read this and then do some more "yapping." He'll likely announce in his next issue that Mr. Lees doesn't know anything about the tariff.

WHEN the report was first started last week that Tanager was to be fired from the pension office, Private Dazell was interviewed by the New York Herald, and here is what he said:

Remove Corporal Tanager? Oh, I guess not. It would cost the Republicans every State North this year of grace 1889, and both houses before two years. It would occasion such a revolt among the boys in blue, they would leave the party in a body. No danger of Corporal Tanager's removal, better remove the entire Cabinet. He has two reasons for holding office—no other official at Washington had two legs shot off in battle, and one other reason no man ever had before, and that is, he was a private soldier—the only one ever yet honored with an office by any administration, and the only one that ever will be. So he must remain. No, sir; he will not be removed; if he was removed Foraker would decline to remain on the ticket in Ohio. His doom would be sealed from that hour. The soldiers are swearing mad, howling, cursing, damned mad, at the jealousy of the aristocrats who are hounding our comrade to his death. Woe, woe, to them, if they down Tanager, for, by the God that rules and reigns, if they touch a hair of his head we will scalp every man of them. Our vengeance will stop at nothing lawful.

Tanager was bounced, but the Nation hasn't been startled by Foraker's withdrawal from the ticket in Ohio. The fun will commence, however, when Dazell and his gang begin the scalping act.

A Few Words to the Republican.

Our esteemed Brother Marsh, of the BULLETIN, is reiterating more Democratic rot, this time about the low wages of miners in Pennsylvania, and that Harrison is the only peace President who ever increased the public debt in any month. Both are falsehoods. Brother Marsh is a conscientious fellow, and in his innocence he should be careful about repeating the lies put forth by old Democratic sinners. He might have to make some more corrections like the one in regard to the alleged defalcation of Treasurer Spinner; and when one has to assert and deny alternately, he soon loses his "grip" as a reliable journalist. No charge for this advice.—Maysville Republican.

Our information in regard to the wages of miners in Pennsylvania was obtained from a reliable paper—the Patriot—published in that State. But it has been notorious for some time that the miners in many portions of that State, as well as at other points, have been working at starvation rates.

Brother Davis needn't trouble himself

on our account. We didn't "have to make" any correction in regard to that "alleged defalcation of Treasurer Spinner." For years and years, under Republican rule the records at Washington City showed Mr. Spinner to be a defaulter for over \$300,000. The Democrats get their information in regard to the matter from the records, and published it as such. It turned out, however, that a Republican clerk had substituted Mr. Spinner's name for some one else's. The BULLETIN's publication resulted in a discovery of the error and the correction of the records, and the BULLETIN was magnanimous enough to give the facts in the case and set Mr. Spinner right before the world.

Needs Explanation.

It appears from the annual report for 1888 of Ohio's Auditor Poe that in that year one-quarter million dollars were transferred from Ohio's sinking fund to Ohio's general revenue fund. This is contrary to that section (No. 237) of Ohio's Revised statutes which provides that "funds belonging to the sinking fund shall be applied to the payment of the principal and interest of the funded debt of the State and expenses of such payment and to no other purpose whatever."

As this was done with Governor Foraker's approval, the matter would seem to be one needing explanation on his part.—Cincinnati Post.

Man and Money Missing.

TEXARKANA, Ark., Sept. 16.—Professor J. Wiss, one of the oldest and wealthiest citizens of Texarkana, late president and manager of the Texarkana Savings bank, is missing with \$37,000 of other people's money. He was a man of exemplary habits, and his escape causes the greatest surprise.

An Alleged Stage Robber Arrested.

ONRVILLE, Cal., Sept. 16.—John Mullings, who is thought to be one of the Quincy stage robbers, has been arrested here.

Weather Indications.

Light rain, followed by much colder, clearing weather and northerly winds.

PRICES CURRENT.

Review of the Money, Stock and Cattle Quotations for Sept. 14.

NEW YORK—Money at 3 per cent. Currency rates, 115 bid; four coupons 123; four-and-halves, 105½ bid.

The new cut in rates in the west by the Chicago, Burlington and Northern had a depressing effect upon the stock market this morning. The opening prices were generally ½ to ¾ per cent. lower than last evening. During the first hour prices made further declines on limited transactions. There was a little more animation in the hour to noon, but the tone continued weak to the close. On the appearance of the bank statement about 11:30, showing a decrease in the reserves of \$2,922,694, there was a further decline. The closing prices were about the lowest of the day and were ½ to 1½ per cent. below those of yesterday.

Death in the Grape Seed.

(New York World.)

When one hears of the museum freaks who swallow jack-knives, rusty iron nails, pieces of glass without sustaining any injury to their digestive organs, it seems impossible to believe that the swallowing of a mere seed of grape could place a man at the very threshold of death. Yet such is the fate of young William Walton, of No. 553 Eighth avenue.

A few days ago he was taken sick after eating some grapes. An abscess arose on his side, which, on investigation, proved to be the seed of a grape having lodged in the vermiform appendix. A surgical operation became necessary and the young man now lies in a precarious condition and little hopes are entertained of his recovery. The case is a very rare one and has attracted much professional interest.

Kentucky STOCK FARM

(BLUE GRASS)

FOR SALE OR LEASE.

I will sell, or lease for a term of years, MELBROE STOCK FARM, the whole of the late W. T. Dudley, situated within one mile of Frankfort, Ky., on the Lexington turnpike, and L. and N. Railroad, containing 265 acres, which may be divided into two tracts, one containing 165 acres, with the residence and improvements, and the other 100 acres with one hundred horses.

The soil is rich, producing large yields of tobacco, wheat, corn, etc., and there are five never-failing springs of limestone water on the place.

The residence is of brick, with ten rooms, located on a commanding eminence and surrounded by forest trees. Improvements include two large stables, two large tobacco barns and other farm buildings all in perfect repair, and a fine orchard of best fruits, now in full bearing. An excellent half-mile track may be made on the place.

This farm has all the requisites for a first-class stock farm, offering special advantages for raising and training horses, the greater part of it being now well set in blue grass. Will take \$20,000 for the whole place, one-quarter cash, balance in one, two and three years, with interest, or will lease for five years at \$2,000 per year.

For further particulars address FRANK CHASE, Attorney, Frankfort, Ky. 3d1m MARY J. DUDLEY, executrix.

ALMOST BLEED TO DEATH

Jim Berger Dangerously Cut During a Quarrel with Joe Gill

Jim Berger, the painter, was dangerously cut yesterday afternoon by Joe Gill, a cigar-maker.

Both had been drinking. They got into a quarrel early in the morning about some woman, and came to blows. This was on Court street, and Berger had Gill down, with a knife to his throat; when a couple of gentlemen happened along and separated the two.

In the afternoon, they came together again, this time near the foot of the steps leading from the railroad to Forest avenue. The quarrel was renewed. This time Berger didn't fare so well. Gill soon downed him, and drawing a cigar-maker's knife slashed him across the left side of the head and again on the throat before they were separated.

The first cut was eight or ten inches in length, extending down across the temple and the ear, severing five or six arteries and cutting the ear in twain. The other cut was a slight one. Berger was at once carried to the home of Mr. George T. Wood. He was covered with blood, was still bleeding and could not have survived very long, had not Dr. Browning, who happened to be near by, arrived on the scene and checked the flow. The wounds were afterwards dressed by the doctor, who was assisted by Dr. Phillips. Berger was removed to the County Infirmary later in the afternoon.

Gill escaped to Aberdeen, and had not been arrested at last accounts. Berger was reported resting well this morning.

THE ONE PRICE SYSTEM

Ever since the beginning of MINER'S SHOE STORE. Over fifty years ago, the One Price principle has been strictly adhered to. It is one of the bright features of our business. That it is the fairest, squarest and most satisfactory in all respects, every buyer will admit.

Another thing in this connection: Where one price is the rule, of necessity it means the very lowest cash price; the two are inseparably connected. Think this over and see if the statement is not correct. As a measure of good faith, we mark everything in plain figures, that "He who runs may read."

He Laytham and W. T. Calvert. Another wing of this church passed Friday to Bryan's, to hold session. They were also of Mason or Fleming, viz: Mrs. Malinda Wallingford, Elder J. H. Wallingford and wife, Mrs. Helm Wallingford, Miss Linnie Wallingford, Stuart Wallingford, Jos. Wallingford, H. C. Stone, wife and daughter and M. B. Tolle.

An illicit distillery near New Hope, Nelson County, was raided by General Deputy Collector Wood G. Dunlap. Three thousand gallons of beer and twenty of whisky, seventeen large mash-tubs and most all the other appurtenances of a distillery were destroyed.

Kentucky Conference Notes.

The session will probably close to-day. The Church Extension Society of the conference raised \$1,500 the past year. The collection Friday night was \$450. Judge Hargis, of Louisville, an honor d Dr. Morton, of the Church Extension Board, to put him down for \$10 every time he took a collection for erecting churches in the eastern portion of the State.

A collection was taken up for support of Rev. W. D. Powers and \$650 was raised.

G. B. Poage, J. C. Minor, G. N. Bufington and H. M. Sweeney were placed on the supernumerary list.

R. Deering, B. F. Sedwick, S. S. Deering, T. N. Ralston, D. Wellum, W. D. Powers, W. B. Kivanough and J. R. Peeples were placed on the supernumerary list.

The senior member of the firm of N. & D. Watson will go to Cincinnati next Monday to lay in fall and winter supplies of dry goods and notions.

Mr. and Mrs. A. O. White, of Sardis, gave a dining on Saturday last to a few relatives and special friends. They will remove to Mississippi this fall.

Thursday was Sheriff's day at Shannon. The tax-payers rallied promptly, and our smiling Deputy was kept busy writing receipts all day.

Mr. Charlie Collins, of Washington, put up and finished a 5x35 tobacco barn, seven feet high for Will Gray from Monday to Friday, last week. He did the framing of home.

Relatives and friends were much gratified to meet Mrs. Cooper, nee Belle Dye, and her five seven-year-old boy, on her recent visit. She went from her to Milledush to visit her cousin, Miss Mary Arthur.

Mr. A. O. White has sent on his resignation as postmaster at Sardis and has recommended Mr. John Leach as his successor. While we welcome the new comer, we hate to say goodbye to the old post.

W. P. Jefferson and T. N. Watson were on the quiet waters of the North Fork Friday last, exercising their skill with pole and line in the piscatorial art. They captured enough of the funny tribe to make a toothsome "mess" for supper.

Mr. Duke Watson is working like a Trojan, selecting and pricing tobacco. With his own raising and some of his neighbors' crops he will have fifty hogheads to ship to Cincinnati. The firm of N. & D. Watson is not dealing in the leaf this season.

Judge Dye, of Sardis, has just returned from a business trip through the counties of Bourbon, Fayette, Scott and Woodford. He was out hunting up some of his old customers and rescuing some long-standing suspense accounts. He says the corn and tobacco crops of those counties are not up to the Mason standard.

"Squire John L. Grant, of Maysville, was with us on Thursday and Friday last, exhibiting his nephew and namesake, Grant Kilpatrick, in the expert operations of first-class inteliery. Every detail, from the death of the beetle to the sewing and carving out of the "tender line" and porter-house stakes, is done secundum artem. The 'Squire handles himself like a boy."

Valuable Charts.

An "Album of Agricultural Sketches" Just Issued.

YIELD OF CERTAIN PRODUCTS.

Grouping of States That Produce the Leading Cereals—Area of Wheat and Corn in the Different Groups—Other Dispatches From the National Capital.

WASHINGTON, Sept. 16.—Mr. J. R. Dodge, statistician of the United States department of agriculture, has prepared a series of sixteen charts, preceded by brief letter press descriptions and bound as an "Album of agricultural statistics." The basis of each is a small map of the United States. Most of these charts illustrate the result of the statistical work of the department, though the first and second show respectively the proportions, by states, of the elements of the total land surface and of the more restricted farm areas, and the sixteenth illustrated the tenure of farms by proprietors, tenants paying money rent, and tenants giving a share of produce in lieu of rent. In these the state differences are by proportions rather than by acres of numbers.

All the other charts carry the idea of local distribution, as of the relative area of certain principal cereals in the several states and territories, and differences in rate of yield of certain products and in average prices of farm animals. These differences are first indicated by placing states in five groups, each having a certain range of differentiation, and giving to each group a grade of density in color and a distinct peculiarity of mechanical drawing. But for closer comparison, a scale is made with the national average of zero and the percentage of each state above or below this average is indicated on the map in plain figures, with the plus or minus prefix, showing the relation of each state to the general average as well as to every other state average. On the margin is also placed the tabulation upon which the graphic delineation is based.

In the first group in corn growing, comprising states having more than one hundred acres in maize in every 1,000 of the superficial area, are ten states, viz: Iowa with 219 acres; Illinois, 217; Delaware, 176; Indiana, 157; Missouri, 149; Tennessee, 136; Kentucky, 123; Maryland, 117; Kansas, 113; Ohio, 110.

In the rate of yield of wheat the first group, with a ten years' average of sixteen and six-tenths bushels or more per acre, includes only the divisions of the Rocky mountain and Pacific coast region, and a part of the New England states. In the second group are Michigan, New York, Ohio, Indiana, New Hampshire, Illinois, Maine and Arizona in order. The states producing the most are not those with the largest proportion of surface in wheat, or the largest yield per acre. Dakota has but forty-one acres in every 1,000, and a yield of thirteen and six-tenths bushels per acre.

Analogous facts are shown in regard to oats. The charts deal only with the three cereals, maize, wheat and oats, these comprising as they do 97 per cent. of the total cereal production of the country.

In producing the extraordinary differences in average value of farm animals, the largest factor is breed or blood, while feed and care, and distance from market are other elements of variation. This publication which is a part of the work in graphic illustration for popularizing agricultural statistics is presented in the hope of aiding a clear appreciation of some of the leading facts of American agriculture.

Delegates to the American Congress.

WASHINGTON, Sept. 16.—The delegate from Honduras to the International American congress is Geronimo Zelaya. He will arrive in New York city by the Pacific mail steamer from Aspinwall about the 24th of this month. He is an eminent lawyer, perhaps the most distinguished in that country, and has filled the position of minister for foreign relations at home for several years past. He was a delegate to the Central American congress, which met in Guatemala in 1886, and also a delegate to the Central American congress, which met in Costa Rica in 1888.

Dr. Fernando Cruz, the delegate from Guatemala, already here, is a literary man and a lawyer. He was formerly professor in the National university of Guatemala, and was secretary for foreign relations under President Barrios. Domingo Estrada, who was for several years consul for Guatemala at San Francisco, has been appointed secretary to the delegation which will represent that country in congress.

Captain Armes' Sanity.

WASHINGTON, Sept. 16.—Two army surgeons John Billings and Washington Matthews, will on Tuesday morning, at army medical museum, examine Capt. George A. Armes as to his sanity. Capt. Armes recently figured in a court martial at the war department for having pulled the nose of Gen. Beaver not long after the inauguration. Some weeks after this the papers were filled with the secretary of war by a certain person to the effect that Capt. Armes was not responsible for his actions.

The letter was, of course, signed, but was of sufficient influence to have the writer's name kept a secret and it will not be made public during the examination. The two physicians have been instructed to go thoroughly into the matter and the private and public life of Capt. Armes will be submitted to a most rigid investigation. Prominent army officers are of the opinion that the board will not make any finding and the matter will eventually go to the courts.

Corner Stone Laid.

WASHINGTON, Sept. 16.—The corner stone of the new St. Peter's church was laid yesterday with imposing ceremonies. Cardinal Gibbons officiated and delivered an address to a large audience. The parade which preceded the

laying of the stone was one of the largest Catholic processions ever seen in this city.

Major Warner Still Hesitates.

WASHINGTON, Sept. 16.—Maj. Warner has not yet decided whether he will accept the position of commissioner of pensions. Private Secretary Halford will go to Deer Park, Tuesday, and will probably take with him to the president Maj. Warner's answer.

THROUGH WHIRLPOOL RAPIDS.

Another Man Successfully Accomplished That Daring Feat.

NIAGARA FALLS, N. Y., Sept. 16.—Walter G. Campbell went through the whirlpool rapids in a boat yesterday and was unhurt. The boat upset, but Campbell, who was padded with cotton and covered with life preservers, got through all right and was picked up on the Canadian side. A dog that he had in the boat, dressed in the same way also went through safely.

At 3:20 the signal for the start was given. Campbell rowed steadily toward the center of the river until he had reached the Canadian current. In a few minutes the frail skiff reached water so rough that Campbell could not use his oars. Then he stood erect in the boat as it tossed in the swift moving current instead of jumping out. Just as the boat struck the big boilers at the commencement of the Whirlpool rapids he crouched down and elung to the sides of the skiff with a look of terror and despair as the waves dashed over him. The cork-coated dog shivered in the bottom of the skiff.

Opposite Battery's elevator at the spot where Webb and Flack lost their lives, the boat shot into the air. Both man and dog were thrown violently out and were not seen for several rods owing to the foam. When he appeared again he struck out madly trying to swim. No time was kept, but Campbell went through as quickly as others have—about four minutes. In the whirlpool the skiff came out first by several rods, then the dog and lastly Campbell. He seemed dazed and swam without apparent object, but soon drifted near enough ashore to be rescued. The dog was also pulled out alive. Campbell was quickly surrounded by his cronies and filled up from their whisky flasks so fast that he could give no very intelligible story of his trip, except to say that it was worse than he expected and he would not do it again for anything.

Steve Brodie Takes Another Jump.

CLEVELAND, O., Sept. 16.—Steve Brodie, the bridge jumper, dropped from a cable at Deyers park, a local summer resort into a pond Sunday afternoon. The fall is about one hundred feet. There is nothing particularly dangerous in the feat. Brodie was uninjured.
